**Location:** General Santos City, Philippines (Remote Available)

## PROFESSIONAL SUMMARY

Dynamic AI developer, automation specialist, and digital operations professional with over a decade of hands-on experience designing, building, and deploying fully automated AI systems and advanced system integrations. Proven track record of developing end to end intelligent workflows, custom AI agents, and robust API integrations that seamlessly connect CRMs, data pipelines, and cloud platforms. Skilled in architecting autonomous business processes, implementing LLM solutions, and engineering scalable data architectures that eliminate manual bottlenecks and drive operational efficiency in fast paced environments.

## TECHNICAL SKILLS & CORE COMPETENCIES

**AI & Automation:** Custom AI Agents, LLM Workflows (OpenAI, Claude API), Autonomous Workflows, n8n, Zapier, Make (Integromat), GoHighLevel, Google Apps Script, Data Pipelines & ETL

**Development & Engineering:** Python Scripting, JavaScript (ES6+), TypeScript, React 19, Next.js, HTML5, CSS3, Tailwind CSS, REST APIs, Web Scraping, Git & GitHub

**Digital Operations & CRM:** CRM Architecture (GoHighLevel, HubSpot), Data Normalization & Extraction, Workflow Orchestration, Process Optimization

**Design & Multimedia:** UI/UX Design, Figma, Adobe Creative Suite (Photoshop, Premiere Pro, After Effects), Modern Cyber-Minimalist Design Systems

## FEATURED SOLUTIONS & PROJECT IMPACT (HOW I DELIVER RESULTS)

### Real Estate AI Data Extraction & Automated Lead Pipeline

Python • AI Agents • ETL • CRM Webhooks

**Problem:** Client spent 30+ hours weekly manually searching, copying, and formatting property seller records across multiple fragmented portals with high data entry error rates.

**Solution:** Architected an automated Python data pipeline with custom scraping bots and LLM parsing to extract, normalize, and push validated property listings directly into CRM with real-time webhooks.

**Achieved:** Automated 90% of manual data collection, processing **10,000+ records weekly** with **98% accuracy** and saving 25+ staff hours every week.

### KeyNest Properties — High-Conversion Platform & Automated Intake

React • Tailwind • CRM Integration • Automated Follow-up

**Problem:** Minnesota cash home buyer needed a high-trust digital platform capable of capturing motivated seller inquiries and routing them to acquisition managers with zero delay.

**Solution:** Designed and deployed a responsive modern web application with multi-step valuation intake forms, instant SMS/email triggers, and automated CRM lead qualification.

**Achieved:** Reduced initial lead response time from 3 hours to < 2 minutes, driving a **45% surge in qualified inbound seller inquiries** within 60 days of launch.

### B2B Lead Generation & Automated Outreach Engine

GoHighLevel • Apollo API • Zapier • Email Infrastructure

**Problem:** Consulting firm experienced low outbound deliverability, disconnected prospect spreadsheets, and inconsistent follow-ups leading to dropped sales deals.

**Solution:** Built a unified outbound prospecting engine combining Apollo/data-enrichment APIs with GoHighLevel and Zapier for automated multi-channel nurturing and real-time meeting scheduling.

**Achieved:** Generated **500+ verified B2B leads monthly**, achieved **96% email deliverability**, and increased booked sales discovery calls by **40%**.

### Elite Assistant — Digital Onboarding & Agency Web Ecosystem

UI/UX Design • Web App • AI Workflow Automation

**Problem:** Agency required a compelling platform to showcase hybrid AI-human virtual assistant solutions and streamline prospective client onboarding without manual touchpoints.

**Solution:** Engineered custom responsive web app with interactive service selection, automated intake calendar scheduling, and instant service-tier qualification logic.

**Achieved:** Elevated **visitor session duration by 60%** and achieved a **35% lift in completed discovery consultations**.

## PROFESSIONAL WORK EXPERIENCE

**AI Automation Specialist & Data Systems** — Saunders Real Estate
April 2025 – Dec 2025 | Full-Time Remote

Architected and maintained end-to-end automated data collection systems and intelligent real estate pipelines.

- Engineered automated web scrapers with custom Python scripts, extracting 10,000+ real estate records weekly.
- Integrated multi-source data feeds into centralized CRM with real-time webhooks and automated duplicate resolution.
- Implemented AI-powered data validation using LLM agents, ensuring 98%+ data integrity across all active deals.

**Multimedia & Video Production Specialist** — Brigada Group
April 2022 – March 2025 | Full-Time Remote & Site

Led post-production media workflows, video editing, and motion graphics for broadcast television, live news, and corporate events.

- Standardized media rendering workflows across Adobe Premiere Pro and After Effects, cutting turnaround time by 30%.
- Supervised digital asset management pipelines, ensuring seamless distribution across television and web streaming channels.

**Virtual Operations Lead & Lead Generation** — JK Consulting LLC
June 2023 – Sept 2024 | Full-Time Remote

Managed B2B lead generation, prospect data research, and outbound marketing automations.

- Built high-accuracy target prospect lists via Apollo, LinkedIn Sales Navigator, and proprietary enrichment tools.
- Automated multi-stage follow-up sequences in GoHighLevel, consistently delivering 500+ verified monthly leads.

**Web Designer & Full-Stack Developer** — Antony Dye & Associates
March 2024 | Freelance Remote

Designed, developed, and deployed the official agency website with bespoke UI components and responsive layout.

**Virtual Assistant & CRM Operations** — Seraphim Equities
Jan 2023 – April 2024 | Part-Time Remote

Administered CRM data workflows, lead tracking, and automated contact management for private equity real estate transactions.

**IT Manager & Operations Lead** — Callprime Global
Jan 2020 – Dec 2021 | Full-Time Onsite

Directed IT infrastructure, internal network security, server uptime, hardware setup, and technical support operations.

- Maintained 99.9% infrastructure uptime across 100+ workstations, VoIP telephony, and internal business servers.
- Authored standard operating procedures (SOPs) and disaster recovery protocols for business continuity.

**SEO & Search Automation Specialist** — Rocket.seo
Nov 2016 – May 2018 | Part-Time Remote

Executed technical search engine audits, competitive backlink intelligence, and keyword ranking automations.

## EDUCATION & ACADEMIC BACKGROUND

**Bachelor of Science in Business Administration**
STI College of General Santos City
2016 – 2020 • Operations & Business Management

**Bachelor of Science in Computer Science**
STI College of General Santos City
2010 – 2014 • Software Systems & Data Structures

## HOW I HANDLE PROJECTS & DELIVER REAL IMPACT

**1. Problem-First Root Cause Analysis:** Deconstructing business bottlenecks and mapping technical requirements before writing code to maximize ROI.

**2. Autonomous Architecture:** Engineering resilient, self-healing automation loops that handle errors gracefully and alert stakeholders instantly.

**3. Full-Stack API Integration:** Seamlessly connecting legacy systems, modern SaaS platforms, and AI models into unified zero-friction operational pipelines.

**4. Design & Performance Rigor:** Combining high-converting cyber-minimalist UI aesthetics with blazing fast performance and accessible responsive code.
